PROFESSIONAL SUMMARY

Senior Full Stack Engineer with 8+ years of experience designing and delivering scalable SaaS platforms, enterprise applications, AI-powered products, and cloud-native solutions. Experienced in leading end-to-end product development, architecting modern web applications, integrating AI and automation systems, and collaborating with distributed teams. Strong background in React.js, Next.js, Node.js, TypeScript, AWS, and AI-driven applications, including RAG systems, multi-agent workflows, conversational AI, and workflow automation.

TECHNICAL SKILLS

Frontend Development

React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

Backend Development

Node.js, Python, Express.js, NestJS, GraphQL, REST APIs, Apollo GraphQL

AI & Automation

LLM Integrations, AI Workflow Automation, Conversational AI, Prompt Engineering, Document Intelligence, AI Assistants, Voice AI Systems, Workflow Orchestration

Cloud & DevOps

AWS, Azure, Docker, DigitalOcean, Serverless Architecture

Databases

PostgreSQL, MongoDB, MySQL, Firebase

Tools & Collaboration

GitHub, GitLab, Postman, VS Code, Agile Development, Sprint Planning, PR Reviews, Technical Architecture, Stakeholder Communication

PROFESSIONAL EXPERIENCE

Senior Full Stack Engineer (Freelance / Contract)

Remote | July 2020 – Present

- Designed and developed scalable SaaS and enterprise-grade applications.
- Led architecture decisions across frontend, backend, cloud, and AI systems.
- Built AI-powered products leveraging LLMs, RAG, multi-agent systems, and workflow automation.
- Collaborated directly with founders, product teams, and stakeholders.
- Delivered cloud-native applications using AWS, Docker, and serverless technologies.

Full Stack Developer

Logicwind | November 2018 – September 2020

- Developed and maintained web applications using React and Node.js.
- Implemented REST APIs and backend services.
- Participated in product planning and architecture discussions.
- Improved application performance and scalability.

Full Stack Developer

La Net Team Software Solutions Pvt. LTD. | June 2018 – October 2018

- Built and maintained client web applications.
 - Worked on frontend and backend feature development.
 - Integrated third-party APIs and databases.
-

SELECTED PROJECTS

[Simsola.ai](#)

AI-powered leadership training platform helping organizations improve collaboration, influence, and decision-making through interactive simulations.

SteerHealth.io

Healthcare automation platform leveraging AI to streamline operational workflows, patient engagement, and healthcare management.

TroopTravel.com

Corporate event logistics platform supporting travel planning, attendee management, and operational coordination.

GirlsFirstFinance.com

Financial education and mentorship platform helping young women access learning resources and financial guidance.

Darlink.ai

AI companion platform providing personalized conversational experiences through configurable AI interactions.

ADK Agent Flow AI

Multi-agent orchestration platform using Google ADK and Gemini models for dynamic, sequential, and parallel AI workflow execution.

AI Business Analyst

Agentic RAG-powered business intelligence assistant delivering contextual insights, automated analysis, and executive reporting.

DocMind AI

Document intelligence platform enabling semantic search, document summarization, and contextual Q&A across large datasets.

Asset Insight (EMSTEEL)

Industrial asset tracking and maintenance monitoring platform integrated with QR-based asset management systems.

Real Deal AI

AI-powered real estate workflow automation platform focused on transaction management and operational efficiency.

Proposal Generator AI

RAG-based proposal automation solution generating customized business proposals from organizational knowledge bases.

AI Voice Calling Agent

Autonomous AI voice agent supporting appointment scheduling, lead qualification, and customer communication workflows.

EDUCATION

Bachelor of Science in Information Technology (BCA)

Uka Tarsadia University (UTU), Bardoli, Gujarat

ADDITIONAL INFORMATION

- Open to Remote Opportunities and Long-Term Product-Focused Roles
- Available to Join Within 1 Week
- Experience collaborating with distributed teams, startups, and enterprise organizations
- Portfolio includes architecture snapshots, workflow demonstrations, and AI system implementations
